# **Karim Hazem Hamed**

# **Full Stack Developer (MEARN)**

Email: karimhazemhamed4@gmail.com GitHub: github.com/karimhazem186

LinkedIn: linkedin.com/in/karim-hazem-6a048a28b/

Portfolio: karimhazem186.github.io

Address: Cairo, Egypt Mobile: +20 102 066 2653

Military Status: Exempted

#### PROFILE

I'm a versatile Full Stack Developer skilled in **MERN** and **MEAN** stacks, passionate about building scalable, maintainable web applications. I thrive in collaborative environments, embrace challenges, and continuously seek to grow. With a focus on clean, efficient code, I aim to deliver impactful, user-centric solutions that drive innovation and value.

#### **EDUCTION**

## CS Department, Faculty of Computers and Artificial Intelligence, Banha University

CGPA: 3.4 / 4 (Very Good) | Graduation Project: Esaltare Dekör (A+) GitHub > 10

10/2021 - 06/2025

#### INTERNSHIP EXPERIENCE

## 1- National Telecommunication Institute (NTI)

Sep 2025 – Jun 2025 (3 months, Advanced Level)

Stack: Angular  $\rightarrow$  TypeScript  $\rightarrow$  Node.js  $\rightarrow$  Express.js  $\rightarrow$  MongoDB  $\rightarrow$  REST APIs  $\rightarrow$  Unit testing Additional Training: Freelancing

• Project: UniSys – University Management System

Built a multilingual, responsive web platform with role-based access, course management, academic tracking, payments, and support tools using the MEAN stack.

## 2- Digital Egypt Pioneers Initiative (DEPI)

Oct 2024 – Apr 2024 (6 months, Full Training Program)

**Stack:** React.js  $\rightarrow$  Redux  $\rightarrow$  Node.js  $\rightarrow$  Express.js  $\rightarrow$  MongoDB  $\rightarrow$  REST APIs  $\rightarrow$  Git

Additional Training: Freelancing · English · Soft Skills

• Project: TechEdu Platform

Developed a web application to bridge the gap between educators and learners through a suite of digital tools and resources. Built using the MERN stack with responsive UI and dynamic data handling.

#### **COURSES & CERTIFICATIONS**

- ITI MEAN Stack Gained hands-on experience with MongoDB, Express.js, Angular, and Node.js by building a CRUD web application. GitHub /
- Huawei Completed intensive training in core AI concepts and machine learning algorithms. GitHub >

## 1- HR Management System

A comprehensive and scalable HR platform for modern organizations. Manages employees, departments, payroll, leave, attendance, and financial entitlements, while adapting to country-specific tax and labor laws.

**Stack:** React.js → Node.js → Express.js → MongoDB

live Demo: https://employee-frontend-gilt.vercel.app/login/ ☑

Source Code: https://github.com/KarimHazem186/-HR Management System/

#### 2- Pinterest Clone

A simple, full-stack Pinterest-style application built with the MEAN stack and TypeScript. Features include image posting, saving, and browsing with a responsive grid layout and clean UI.

Stack: Angular (TypeScript) → Node.js → Express.js → MongoDB

Source Code(Frontend): <a href="https://github.com/KarimHazem186/Pinterest-clone-frontend-Angular/">https://github.com/KarimHazem186/Pinterest-clone-frontend-Angular/</a>

Source Code(Backend): <a href="https://github.com/KarimHazem186/Pinterest-clone/">https://github.com/KarimHazem186/Pinterest-clone/</a>

### 3- E-Commerce Web App (Amazon Clone)

Developed a responsive web application inspired by Amazon, focusing on a smooth buying and selling experience. Includes product browsing, cart management, and user authentication.

**Stack:** React.js → Node.js → Express.js → MongoDB

live Demo: <a href="https://e-commerce-web-app-like-amazon-gx2x.vercel.app/">https://e-commerce-web-app-like-amazon-gx2x.vercel.app/</a> ☑

☑

## 4- A Backend Audio Library App

Developed a backend-focused application for uploading and managing audiobooks, lectures, and podcasts. Features include user authentication, role-based access, file uploads, and audio streaming.

**Stack:** Node.js  $\rightarrow$  Express.js  $\rightarrow$  MongoDB

Source Code: https://github.com/KarimHazem186/The First Project Backend NTI/ 2

#### TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, C++
- Frontend: HTML, CSS, React.js, Angular, Redux, Bootstrap, Ant Design, Material UI, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Databases:** MongoDB, Mongoose, SQL, SQLite, Redis
- Cloud Services: Cloudinary (File Storage), AWS Basics
- Tools & Platforms: Git, GitHub, Docker, VS Code, Postman, Netlify, Vercel, Heroku
- Other Skills: Figma, Responsive Design, MVC Architecture, API Integration, Machine Learning

#### LANGUAGES & SOFT SKILLS

Arabic: Native

English: Very Good

Teamwork, Initiative, Communication
